#0155

Big Shot

PORCELAIN & FIBERGLASS CLEANER

DESCRIPTION:

BIG SHOT – The one product that does it all! A ready-to-use, non-acid, rinse-free product that cleans sinks, toilet bowls, toilet seats, urinal tubs, shower walls, counter tops, fixtures and drinking fountains. **BIG SHOT** can also be used on desk tops, school lockers, Formica, walls, cupboards, stove tops, refrigerators or any surface not normally harmed by liquid cleaners.

WHAT DOES IT DO?

BIG SHOT removes daily accumulation of lime, rust, soil, mineral stains and odors. **BIG SHOT** has a built in polishing agent that enhances the appearance of porcelain, ceramic tile, chrome and stainless steel surfaces. Simply spray on and wipe off with a clean soft cloth.

WHY IS IT USED?

BIG SHOT was designed to provide cleaning staffs with a safer product than the acid type products that were previously required to remove daily accumulations of soap scum, mineral build up and lime deposits. We recommend **BIG SHOT** as your daily cleaner so personnel can restrict the need of an acid type cleaner to an as needed basis only.

HOW IS IT USED?

Sinks, Tubs, Fixtures: Spray entire surface, including chrome fixtures – OR – saturate cleaning cloth with the liquid. Wet entire area. Let product set for 3 minutes. Then wipe away with cloth or rag. If surface dries before you get to it, re-wet lightly and proceed with cleaning process.

For Fiberglass: Spray on – allow to penetrate for five minutes. Re-apply and wipe away. For cleaning fiberglass tubs & stalls, there is no easier or more efficient way.

Toilet Bowls, Urinals: Simply spray the toilet or urinal, inside and out, with **BIG SHOT**. Allow to penetrate for 2 minutes. Clean with a swab mop or bowl brush. (For exterior area, a cloth may be used to wipe the soil and solution). Great for maintaining these areas on a day-to-day basis although we do recommend using an acid product once a month to prevent heavy rust deposits from forming.

PACKAGING:

This product is available in 1 quart, 1 gallon, 5 gallon, and 55 gallon containers.
